Congratulations to the Northcote High School class of 2015. Across the board, VCE results were excellent - as reflected by the Australian Tertiary Achievement Rank (ATAR) and by individual study scores. The school achieved a record mean study score of 31.3 and a high of 12.5% of study scores over 40. 25% of ATARs were over 90 and 53% of student ATARs were over 70, placing more than half the cohort in the top 30% of the state. In total, over 419 students were enrolled in at least one Unit 3&4 subject, of whom 265 were completing year 12.
This brochure profiles the stories of some of our 61 students who achieved ATARs over 90.

This brochure profiles the stories of some of our students who achieved great success at the end of six years of secondary school. However, it is important to remember success in the VCE can be measured in different ways. Many students have achieved their personal best in one or more subjects. Others achieved their ultimate objective in gaining access to a planned course or pathway. For parents, teachers and the students themselves, this is extremely rewarding.
